

PE and sport premium for primary schools

The school receives PE and sport premium funding based on the number of pupils in the primary department. For our school this is all of the pupils in year 3 to 6. The January school census determines how many pupils in our school attract the funding. Therefore, the January 17 census determined the 2017-18 funding and the January 2018 census determined the 2018-19 funding. The school is accountable for how it uses the premium. The school must use the premium to make additional and sustainable improvements to the quality of PE and sport offered.

Therefore, the premium should be used to:

- develop or add to the PE and sport activities that your school already offers
- build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years

Allocation of PE and sports premium.

The government plans to award Primary PE and Sport Premium in 2018 and 2019. Not only does funding continue, it remains at the current rate. It's double the amount paid to primary schools in 2016.

In 2018, we expect to receive £16,000, with an additional payment of £10 per registered pupil.

Funding for 2017-18 was £16,000 plus an additional payment of £10 per pupil.

Spending the funding

Guidance, in the form of examples is provided regarding appropriate use of the funding. Examples include:

- provide staff with professional development, mentoring, training and resources to help them teach PE and sport more effectively
- hire qualified sports coaches to work with teachers to enhance or extend current opportunities
- introduce new sports, dance or other activities to encourage more pupils to take up sport and physical activities
- support and involve the least active children by providing targeted activities, and running or extending school sports and holiday clubs
- enter or run more sport competitions
- partner with other schools to run sports activities and clubs
- increase pupils' participation in the [School Games](#)
- encourage pupils to take on leadership or volunteer roles that support sport and physical activity within the school
- provide additional swimming provision targeted to pupils not able to meet the swimming requirements of the national curriculum
- embed physical activity into the school day through active travel to and from school, active playgrounds and active teaching

How we will spend the funding.

Plan to use the premium to invest in all-weather surfaces in the primary playground for play and games. Contractors have provided quotes (Spring 2018) and the school is in the process of securing other sources of finance to enable the project to go ahead during 2018-19.

How we have spent the funding.

The intention is to combine the grants from 2017-18 and 2018-19 to part fund the project mentioned above.

The effect of the premium on pupils' PE and sport participation and attainment

Guidance provides 5 key indicators that schools should expect to see improvement across:

- the engagement of all pupils in regular physical activity - the Chief Medical Officer guidelines recommend that all children and young people aged 5 to 18 engage in at least 60 minutes of physical activity a day, of which 30 minutes should be in school
- the profile of PE and sport is raised across the school as a tool for whole-school improvement
- increased confidence, knowledge and skills of all staff in teaching PE and sport
- broader experience of a range of sports and activities offered to all pupils
- increased participation in competitive sport

Investment in an amount of new equipment over the last 2 years has enabled improved engagement in regular physical activity. Our one hour lunch period as well as timetabled PE lessons and outdoor breaks (x 2 per day) for primary aged pupils provides the opportunity for children to comply with the CMO guidelines.

PE has always had a high profile in the school and is seen as complementary to the improvement of other areas of the curriculum.

Our highly skilled school PE team lead sessions and model best practice to the primary support staff, enabling them to be increasingly confident in supporting the delivery of high quality physical activity.

We continue to offer a widening range of sports and activities, including inclusive sports such as Boccia.

We promote and support competitive sport and work to make these inclusive to all abilities.

How we will ensure that improvements are sustainable

Improvements in equipment and other infrastructure mean that improvements should be sustainable.
